## Credible and compassionate health information for teens and young adults.

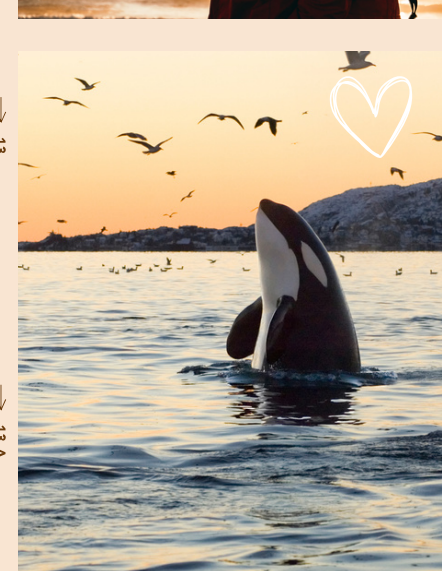

The Washington State Department of Health (DOH) is launching a new webpage for teens and young adults - [Teen Health Hub WA](https://doh.wa.gov/teenhealthhub). It's a hub of youth-friendly health information and resources on topics young people want to know about, including:

- Behavioral health
- Primary care
- Navigating the health care system
- Sexual and reproductive health
- Teen dating and violence prevention.

[Teen Health Hub WA](https://doh.wa.gov/teenhealthhub) features easy-to-use links to health-related websites and resources. All links and information featured on the webpage are vetted by DOH experts and reviewed by DOH's Youth Advisory Council.

# Created with young people for young people.

Young people want easy access to accurate, credible, and reliable health information online. This is a clear recommendation of [DOH's Youth Advisory Council](#). They want DOH to become a trusted voice and provide health information in youth-friendly ways.

In 2023, we worked with members of the Youth Advisory Council to co-create the [Teen Health Hub WA](#). They advised us on all elements, including design, user interface, branding, and content.

Our goal is to continue working with the Youth Advisory Council to expand this website. The website will have guides on topics young people want to know about, like scheduling a doctor's appointment and an inventory of youth-serving resources in Washington. Information will be available in Spanish, soon!
