

## Priority Topics for Ongoing Discussion—DAFN Workgroup

- How does this impact the health and well-being of individuals with DAFN?
- What role does public health play in this issue?
- What is the outcome we'd like to see?
- What role could this workgroup play on this issue?
  - Informing DOH
  - Outside of DOH

Topic	Problem Statement
Disaster Preparedness	Is there proactive disaster planning for DAFN populations? Can this group play a role in developing protocols and tools individuals can use to develop personal plans? This is especially important for rural communities. Meeting with the National Guards CBRN (Contamination, Bio-hazards, Radioactivity, Nuclear Threats Unit) to ensure they are planning for those with DAFN
Isolation & Mental Health	Mental health issues; social isolation within DAFN populations
Emergency Shelter	Emergency shelter—how can we work proactively to build awareness of shelter options when needed?
Aging	Specific DAFN needs of aging populations
Transportation	
Data Collection	Who is making decisions about how data on disabilities is being collected? Can this group meet with them and be a part of that conversation?
Information Accessibility	What groups are being left out of information dissemination? (Linguistic sub-groups)
