Land & Labor Acknowledgement Part 1

The Community Collaborative would like to acknowledge that we are currently living on the traditional territories of Coast Salish people and other Native peoples who have lived here for many generations and who continue to be systematically erased by policies and practices that remove their histories from this place.

We acknowledge and honor the sovereignty of Indigenous peoples in the North America and in the Island Territories of the United States over their languages, cultures and lands.

We will collectively labor to center Indigenous humanity and their continued struggles for justice in stewarding the health and wellness of their communities.

Land & Labor Acknowledgement Part 2

We also acknowledge this country has been made possible by the labor of enslaved African peoples and their descendants who suffered the horror of trafficking, slavery, Jim Crow, imprisonment, police brutalities and many other harms we continue to see today through anti-Black sentiment.

We recognize the history of Washington state as complicit with the racist ideology of White supremacy. This persists in present-day racial realities privileging Whites while oppressing BIPOC communities.

We are committed to uplifting the voices, experiences, histories, and contributions of Indigenous and descendants of enslaved peoples.

Agenda

Welcome and Introductions
Revisiting Our Purpose & Goals
Future Discussions/Areas of work
Expanding who's at the table:
Gratitude Share

Purpose for Our Working Group

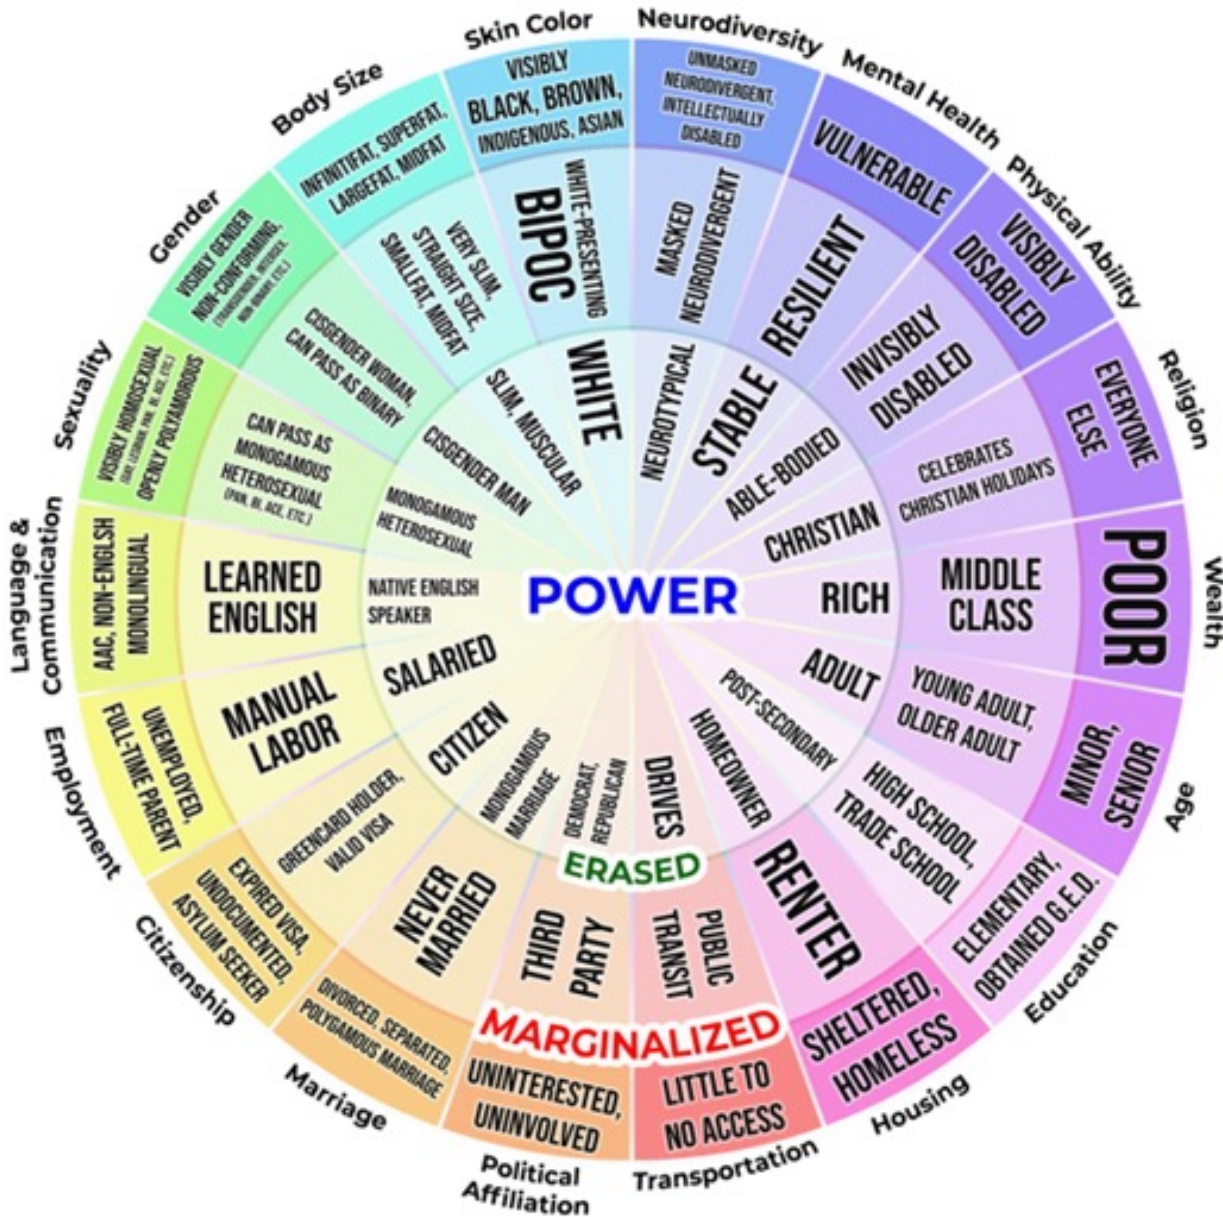

- Intended to center and prioritize people with disabilities and intersecting marginalized identities who experience compounded oppression such as BIPOC, queer, and/or unhoused persons with a disability.
- The space will serve as an opportunity for communities to share concerns and needs; leverage efforts, resources and collaborate together on community informed strategies.
- Create an inclusive space for people with disabilities or others with access and functional needs across the state to share their pressing health concerns with DOH and get answers.

Work Group Goals

- Develop work group community agreements
- Provide recommendations, reviews and advice on accessibility-related programs, policies and other decision-making processes and planning to ensure appropriate attention to the AFN of ppl with disabilities at DOH.
- Provide relevant updates and share community engagement efforts
- Present and share workgroup planning, objectives and efforts with Collaborative Thought Partners and larger Collaborative as necessary
- Elevate community voices, concerns, needs and co-create workgroup objectives
- Collaborate and inform DOH's COVID-19 response and other statewide health disparities and health inequities as they pertain to impacts most heavily felt by people with disabilities inside intersectionally marginalized identities.
- Identify opportunities and support strategies to ensure equitable vaccine access, outreach and community driven engagement in DOH messaging, practices and procedures.
- I want to learn how to break down "barriers" to healthcare access in the BIPOC, LEP and AAPI communities and, of course I want to learn the same for AFN and PwDs as well. Pasifika Community.
- Ensuring access for ppl with disabilities in rural, Central WA, Peninsula, and NE WA. Making sure that our rural communities are represented.
- Parents who need language access to participate in disability spaces
- Immigrants and refugee communities more broadly should also be centered.

INTERSECTIONALITY WHEEL OF PRIVILEGE

As Observed in the USA

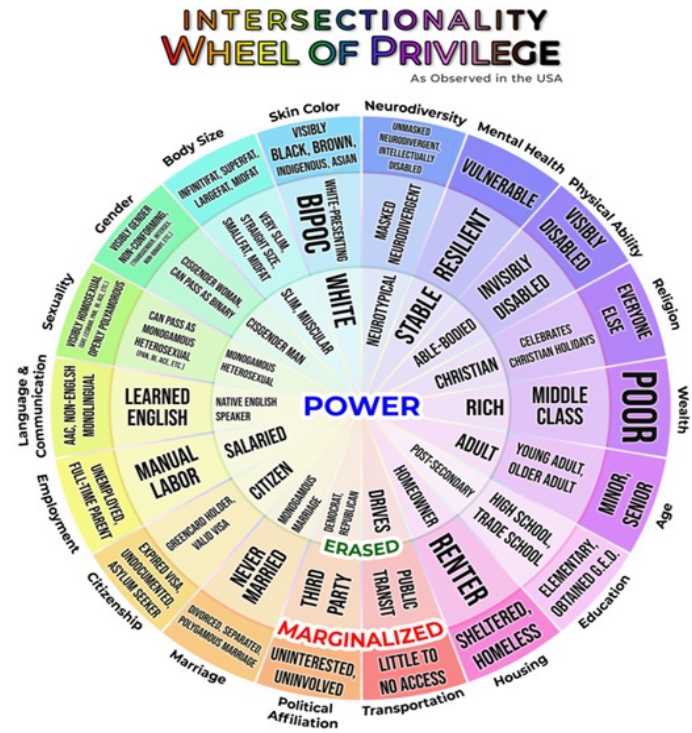

How do we increase participation by those who are at the outside of this wheel?

If we can't bring them to the table, are there ways to bring the table to them?

Action Steps for Broadening Who's at the Table

- Mapping who's currently in the room
 - Review and respond to the suggested interest form
- Re-engaging those who are on our outreach list
 - Create an outreach strategy for our current list
- Identifying and inviting new participants
 - Begin outreach plan

Span of Influence: Our Power to Make Improvement

----- = Sphere of Action

Developing a Problem Statement

Addressing social isolation and mental health needs for the DAFN community

Disaster preparedness & threats and hazard assessment including CBRNE

- How does this impact individuals with DAFN health and well-being?
- What role does public health play in this issue?
- What is the outcome we'd like to see?
- What role could this workgroup play on this issue?
 - Informing DOH
 - Outside of DOH

Closing
