

Guiding an Improved Dementia Experience (GUIDE) Model

A New Dementia Benefit from the Centers for Medicare and Medicaid Services (CMS)

<https://www.cms.gov/priorities/innovation/innovation-models/guide>

What are the GUIDE Model benefits?

- ✓ No-cost wrap-around support
- ✓ Monthly appointments with a care navigator who works with the patient's healthcare team
- ✓ Annual visits from a nurse practitioner and continued oversight
- ✓ Up to \$2500 annual respite benefit that can be used for in or out-of-home respite care and/or an in-home safety assessment (based on CMS-assigned tier)
- ✓ Care coordination, 24/7 access, & ongoing support

Who is the GUIDE Model for?

- People living with dementia
- Care partners who:
 - Are overwhelmed or overburdened by caregiving responsibilities
 - Manage challenging medical situations
 - Have little to no external support or have a complicated family system
 - Need assistance navigating the complexities of healthcare
 - Need respite support

Who is eligible for the GUIDE Model?

Patients must have a dementia diagnosis, i.e. Alzheimer's disease, vascular, Lewy Body, frontotemporal, Parkinson's dementia, or primary progressive aphasia.

Patient must be enrolled in Traditional Medicare (Medicare Parts A and B)

- Cannot be enrolled in a Medicare Advantage plan
- Cannot reside in AL, AFH, MCU, or SNF
- Cannot be receiving PACE or hospice services

Nolia Health is a Washington-based healthcare organization founded by clinicians. They provide comprehensive care that supports both individuals living with dementia and the care partners who care for them. Their interdisciplinary team approach addresses medical, practical, and emotional needs so families never have to feel alone in this journey.
