Medication Assisted Treatment Initiatives to Address the Opioid Crisis

WASHINGTON STATE

DATA SOURCE: Division of Behavioral Health and Recovery.

NOTE: STR Spoke locations may represent more than one clinic or agency providing MAT services or referrals to the STR Hub site.
Importance of the nurse care manager

- Greater numbers of patients able to access treatment
- Supports complex patient needs without burdening providers
- Allows patients to access treatment in their community
- Integrated within primary care therefore supports primary care needs
- Integrates addictions care into medical treatment
- Individualizes treatment
- Removes stigma
- Engages providers
- Is financially sustainable
Other State Efforts to Address Opioid Abuse & Misuse

• Policy/Legislation
• Prescription Take Back
• Revision of the WA State Interagency Opioid Plan
• Opioid Prevention & Treatment Workgroups
• Prescription Monitoring Program (DOH)
• Collaboration with the criminal justice system, Labor & Industries, Tribes, etc.
• Syringe Exchange (DOH)
DBHR Updates

• SAMHSA notification of year two STR funding:
  • Continuation of year two funding has been approved for year 2

• Governor’s budget funded:
  • Five additional Hub and Spoke networks
  • Continuation of Naloxone distribution
  • MAT capacity tracking tool with ADAI/Help Line
  • Expansion of PCAP services
